

ROLLER BANNERS

Used for:

- New products and special deals
- Standing out at exhibitions and trade shows
- Sales events
- Branding effect
- Marking public areas and facilities

Roller banners are one of our most popular promotional items and are perfect for advertising indoors and outdoors. They are extremely stable, relatively lightweight and very easy to use. Retracting neatly into a sturdy case, roller banners are easy to transport and well protected against damage. With such a wide variety of shapes and sizes combined with their elegant design, they provide plenty of space for your message. Roller banners are an important advertising and marketing product for events, meetings or sales rooms.

We offer a large selection of roller banner displays in various designs and formats:

Roller Banners Economy

This affordable, basic model is perfect for situations where there is not a lot of wear and tear. The advantage of this model is its lightweight casing and banner stand made from aluminium. The fold-out feet increase stability and provide for easy assembly.

Roller Banners Design and Roller Banners Comfort

Instead of a three-part stand, these premium roller banners feature a telescopic pole which makes them very easy to pull up – even for shorter people. Choose between two different stand types. The Comfort stand is made of aluminium and is extremely stable. It can stand on its own without the aid of additional feet. The other option is the Design stand which is particularly elegant.

Roller Banners Outdoor

This roller banner is especially designed for outdoor use. The integrated spring-loaded stand minimises wind resistance and allows the system to sway gently in the wind. This model is double-sided so you have twice the space to get your message across.

Roller Banners XXL

This version, which comes in widths of 150, 200 or 240 cm, is perfect for making a big statement. The linen-effect polyester fabric is crease-free and has an elegant appearance. The roller banner is tilted slightly backwards to prevent it from falling over. Because of the width and bulk of this item, we recommend that it is carried and set up by two people.
