

PVC EXHIBITION COUNTER

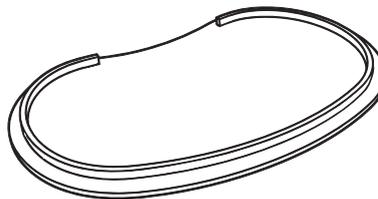

ON SLATTED TRACK, CURVED

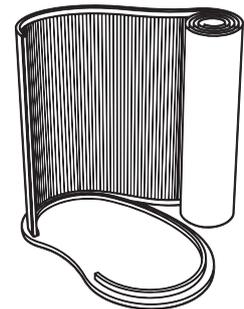

1 Remove the print, the slatted track, the counter and base plate, the intermediate shelf and the metal rods from the transport bags.

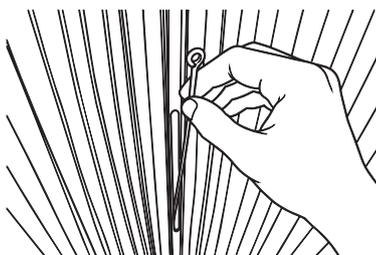

2 Attach the print to the outer edges of the slat strip using Velcro tape.

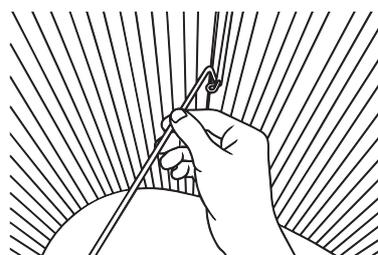

3 Place the base plate on the floor with the guide Velcro facing up.

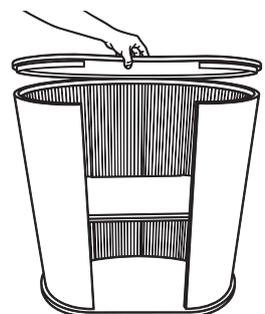

4 Attach the slatted strip to the base plate using the hook-and-loop fastener. Start at the back opening and secure the strip all the way around.

5 Insert the metal rods with eyelets into the 4 designated slots in the slat track.

6 Hang the metal rods with hooks into the eyelets and place the intermediate shelf on the metal rods.

7 Place the countertop panel with the Velcro guide facing down onto the slatted track and press it down slightly to attach it to the Velcro strip.

**THIS IS YOUR FULL-SIZE PVC EXHIBITION COUNTER
WITH CURVED SLAT PANEL.**
